

# ARCADIA DATA CLIENT SUCCESS STORY

How Arcadia Data more than tripled their marketing-driven pipeline and closed millions in revenue by partnering with DemandZEN.

## ABOUT ARCADIA DATA

Arcadia Data is the first visual analytics and BI software solution native to modern data platforms (including Apache Hadoop and the cloud). Arcadia Data allows users to analyze large volumes of data without moving it, filling the gap between self-service Business Intelligence and advanced analytics.

## OBJECTIVES

- ✓ Setting 440 meetings with prospects
- ✓ Tripling the marketing-driven sales pipeline
- ✓ Cementing the (sometimes tenuous) connection between their sales & marketing departments
- ✓ Increasing the number of qualified leads
- ✓ Filling the pipeline for sales
- ✓ Strengthening their account-based marketing (ABM) approach
- ✓ Improving SEO, web traffic, prospect nurturing, and content
